

SUMMARY

I am an applied economist specializing in agricultural, environmental, and development economics. I apply quasi-experimental methods and spatial econometrics to study productivity, impacts of infrastructure, and climate–development linkages. I bring experience across academia and international organizations, delivering rigorous, policy-relevant evidence through a diverse set of microeconomic methods and close engagement with policymakers and practitioners. I have led field missions, delivered training workshops, and conducted collaborative research across multiple continents. I engage in both technical and non-technical settings across diverse institutional environments, working alongside academics, policymakers, and field practitioners.

AREAS OF RESEARCH INTEREST

Primary areas: Applied Spatial and Microeconometrics; Agricultural and Development Economics; Environmental Economics

Secondary areas: Impact Evaluation and Health Economics

EDUCATION

PhD, Economics , Swedish University of Agricultural Sciences, Uppsala-Sweden	2014-2019
Visiting PhD student , University of Western Australia, Perth-Australia	June-Aug. 2018
MSc., Economics , Swedish University of Agricultural Sciences, Uppsala-Sweden	2010-2013
MSc., Rural Development , Swedish University of Agricultural Sciences, Uppsala-Sweden	2009-2011
BA., Economics , Jimma University, Jimma, Ethiopia	2004-2007

EMPLOYMENT HISTORY

Economist (Consultant) - United Nations Food and Agriculture Organization	Jan. 2021 to present
Postdoctoral Researcher - Swedish University of Agricultural Sciences Department of Economics, Uppsala, Sweden	Jan. 2019 - Dec. 2020
Doctoral Researcher - Swedish University of Agricultural Sciences Department of Economics, Uppsala, Sweden	Aug. 2014 - Dec. 2018
Junior Planner - Ethio Telecom, Transformation Program Office, Addis Ababa, Ethiopia	Sept. 2007 - Oct. 2009

SELECTED PEER REVIEWED ARTICLES

- (1) **Tirkaso, W.T.** (2026). On the Impact of Rural Electrification: The Role of Complementary Factors. *Journal of African Economics* (in press).
- (2) Acosta, A., **Tirkaso, W.T.**, Atravia, M., Nicolli, F., Chatzopoulos, T., Araujo-Enciso, S.R., Cicowiez, M., Eskander, S., Laxminarayan, R., and Song, J. (2026). Antimicrobial Use in Livestock: The Economic Cost of Action or Inaction. *Journal of Agricultural Economics*, 0, 1–23.
- (3) Acosta, A., **Tirkaso, W.T.**, Nicolli, F., Van Boeckel, T., and Song, J. (2025). The Future of Antimicrobial Use in Livestock. *Nature Communications*, 16(1), 2469.
- (4) **Tirkaso, W.T.**, and Hailu, A. (2022). Does Neighborhood Matter? The Effect of Spatial Proximity on Farmers Technical Efficiency Level. *Agricultural Economics*, 1–13.
- (5) Marbuah, G., Gren, I-M. and **Tirkaso, W.T.** (2021). Social capital, economic development and carbon emissions: Empirical evidence from counties in Sweden. *Renewable and Sustainable Energy Reviews*, 152, 111691.

- (6) Gren, I-M. and **Tirkaso, W.T.** (2021). Costs and equity of uncertain greenhouse gas reductions: Fuel, food and negative emissions in Sweden. *Energy Economics*, 105638.
- (7) **Tirkaso, W.T.**, and Gren, I-M. (2021). Evaluation of cost efficiency in hydropower-related biodiversity restoration projects in Sweden – a stochastic frontier approach. *Journal of Environmental Planning and Management*, 1–21.
- (8) **Tirkaso, W.T.**, and Gren, I-M. (2020). Road fuel demand and regional effects of carbon taxes in Sweden. *Energy Policy*, 144, 111648.

WORKING PAPERS AND BOOK CHAPTERS

TECHNICAL AND PROGRAMING SKILLS

- Production of Technical and Scientific Documentation: Microsoft Office and LaTeX
- Econometrics and Data Analysis Softwares: Stata, R, ArcGIS/QGIS and Python.

TEACHING EXPERIENCE

Swedish University of Agricultural Sciences, Department of Economics

Microeconomics (Bachelor level course)	Spring 2016
Environmental Economics (Bachelor level course)	Spring 2016

The Swedish Program - Stockholm School of Economics (SSE)

Energy and Environmental Economics (Bachelor level course)	Fall 2021, Spring 2022
--	------------------------

WORKSHOPS, CONFERENCES AND PRESENTATIONS

- (1) Technical Workshop on Antimicrobial Use Mitigation and Farmers Field School Programme Evaluation. Food and Agriculture Organization of the United Nations (FAO), Lusaka, Zambia, 16–24 August 2025.
- (2) Capacity Building Training on Productivity and Efficiency Analysis in Livestock Production. General Statistics Office of Vietnam (GSO) and the Institute of Policy and Strategy for Agriculture and Rural Development (IPSARD), Hanoi, Vietnam, 3–7 July 2023.
- (3) First Meeting of the Quadripartite Technical Group on the Economics of Antimicrobial Resistance. World Health Organization (WHO), Geneva, Switzerland, 4–5 April 2023.
- (4) The 2019 AAEA Annual Meeting. Agricultural & Applied Economics Association, Atlanta, 21–23 July 2019.
- (5) 26th Ulvön Conference on Environmental Economics. Umeå University and the Swedish University of Agricultural Sciences (SLU), Sweden, 18–20 June 2019.
- (6) EAAE Seminar 168: Behavioural Perspectives in Agricultural Economics and Management. The Swedish University of Agricultural Sciences (SLU), Sweden, 6–7 February 2019.
- (7) 2nd Nordic Annual Environmental and Resource Economics (NAERE) Workshop. Norwegian School of Economics (NHH), Norway, 12–13 April 2018.
- (8) 15th European Workshop on Efficiency and Productivity Analysis (EWEPA). Loughborough University, UK, 12–15 June 2017.

- (9) Evaluation of Cost Efficiency in Hydro-Power Related Biodiversity Restoration Projects in Sweden. Centre for Environmental and Resource Economics (CERE), Umeå University, Sweden, 25 October 2017.
- (10) International Society of Ecological Economics (ISEE) 2016 Conference. University of the District of Columbia, USA, 26–29 June 2016.
- (11) Euroleague for Life Sciences (ELLS) Scientific Student Conference. University of Hohenheim, Germany, 11–12 November 2016.
- (12) Euroleague for Life Sciences (ELLS) Scientific Student Conference. Boku University of Natural Resources and Life Sciences, Austria, 14–16 November 2013.
